AUSTRALIAN NATIONAL GUIDELINES FOR THE MANAGEMENT OF HEALTHCARE WORKERS LIVING WITH BLOOD BORNE VIRUSES AND HEALTHCARE WORKERS WHO PERFORM EXPOSURE PRONE PROCEDURES AT RISK OF EXPOSURE TO BLOOD BORNE VIRUSES

The Communicable Diseases Network Australia (CDNA) has published these guidelines. The following is a summary of the requirements in the CDNA guidelines:

Healthcare workers who perform exposure prone procedures (EPPs) must take reasonable steps to know their blood-borne virus (BBV) status and should be tested for BBVs at least once every three years. They are also expected to:

- have appropriate and timely testing and follow up care after a potential occupational exposure associated with a risk of BBV acquisition
- have appropriate testing and follow up care after potential nonoccupational exposure, with testing frequency related to risk factors for virus acquisition
- cease performing all EPPs if diagnosed with a BBV until the criteria in the guidelines are met, and
- confirm that they comply with these guidelines when applying for renewal of registration if requested by their board.

Practitioners who are living with a blood-borne virus and who perform exposure-prone procedures have additional requirements. They are expected to:

- be under the ongoing care of a treating doctor with relevant expertise
- comply with prescribed treatment
- · have ongoing viral load monitoring at the appointed times
- not perform EPPs if particular viral load or viral clearance criteria are not met (see detailed information in the guidelines according to the specific BBV)
- seek advice regarding any change in health condition that may affect their fitness to practise or impair their health
- · release monitoring information to the treating doctor
- if required, release de-identified information to the relevant area of the jurisdictional health department/Expert Advisory Committee, and
- if required, release health monitoring information to a designated person in their workplace in the event of a potential exposure incident to assess the requirement for further public health action.

Additional information can be found in the CDNA Australian National Guidelines for the Management of Healthcare Workers Living with Blood Borne Viruses and Healthcare Workers Who Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses available online at https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en

This must be relevant to your context of practice. If you were granted registration less than 12 months ago, your CPD requirements will be based on how many months you have been registered:

- 3–6 months, at least 10 hours
- 6–9 months, at least 15 hours or
- more than 9 months, at least 20 hours.

CRIMINAL HISTORY

Criminal history includes the following, whether in Australia or overseas, at any time:

- every conviction of a person for an offence
- every plea of guilty or finding of guilt by a court of the person for an offence, whether or not a conviction is recorded for the offence, and
- every charge made against the person for an offence.

Under the National Law, spent convictions legislation does not apply to criminal history disclosure requirements. Therefore, you must disclose your complete criminal history since you last registered with the NMBA as detailed above, irrespective of the time that has lapsed since the charge was laid or the finding of guilt was made. The NMBA will decide whether a health practitioner's criminal history is relevant to the practice of the profession. You are not required to obtain or provide your Australian criminal history report, Ahpra will obtain this check on your behalf.

But if you have not given us certified proof of identity documents since October 2019, you will need to do this first. Any documents containing a photograph must be annotated with the statement 'I certify that this is a true copy of the original and the photograph is a true likeness of the person presenting the document as sighted by me.'

You may be required to obtain international criminal history reports.

For more information, view the registration standard online at

IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

But an illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples of what you do not need to declare include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise the profession in Australia without PII. You must maintain it through your own private cover, your Australian employer or another third party, and ensure you understand it.

But you are not required to hold PII if you are unemployed or working overseas.

Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.

For more information, view the registration standard online at www.nursingmidwiferyboard.gov.au/Registration-Standards

RECENCY OF PRACTICE

You must maintain an adequate connection with your profession and regularly practise it after you qualify for or receive your registration. For nurses and midwives this means you have practised for at least 450 hours over the last 5 years. The NMBA's recency of practice requirements also apply to an endorsement for scheduled medicines or as a nurse practitioner.

If you are unable to meet the recency of practice requirements the NMBA requires you to submit evidence to support your re-entry to practice. Re-entry to practice may require you to complete specific education and/or supervised practice.
