Respected Madam.

I have just knew about requirement of (IELTS) English language skills FOR nursing registration.

This is important to provide safe practice..... but what about those students who is qualified as Nurse from their own country and who did english course first and after did diploma of nursing (EEN) and then after they are studying RN (B.S.C of nursing)??!!and they are continuously studying nursing in australia in english language, are they eligible to get registration?

Kind regards  
Taruna
