Subject: Registration Requirements

Hi Kathleen,

In my opinion the foreign nurses who had a medium of instruction in English who are in Australia in a student visa or dependent visa should be considered for Nursing Registration though they do not meet IELTS as English requirement. Instead, the Board can look for Australian experience in any environment which would give an exposure to the language and culture; also can insist to work in Australia as a post-registration requirement.

Thank you for hearing my voice.

Regards

Jenishmon Abraham
