**Subject:** Consultaion regarding Eglish language requirements- Registered nurse Australia.

Hi

in my opinion IELTS score 7 for each component will not make any difference for a person who score 6.5. the band score 7, prevent people who are qualified and well skilled, scored 7 for all the four components in different sitting, to register as nurses in Australia. By doing this i think the government is not meeting the increased demand of nurses in Australia. I think that IELTS requirement needs to reduce to 6.5 overall or allow to get 7 for each module in two consecutive sitting.

thanks

Tissy Pralel
