

Communiqué

Meeting of the Nursing and Midwifery Board of Australia 23 October 2014 in the AHPRA office, Melbourne

The Nursing and Midwifery Board of Australia (the National Board or NMBA) is the national regulator for nursing and midwifery in Australia. It is established under the Health Practitioner Regulation National Law, as in force in each state and territory ([the National Law](#)).

The National Board meets monthly and considers a range of matters, the most important of which are published in this Communiqué.

In order to facilitate engagement with local stakeholders across states and territories, the National Board now holds its monthly meeting in a different state and territory every two to three months.

This helps the National Board to gain a better understanding of the jurisdictional matters relating to the regulation of enrolled nurses, registered nurses, midwives and students.

It also supports information sharing on the National Board's strategic priorities, projects and regulatory functions with local representatives from the professional and industrial organisations, education providers and employers, health department and members of the local state or territory board of the NMBA.
